# E-Commerce Project

## 1. URL of Github directory for your ECom Project

- <https://github.com/VidhiKhare26/E-Commerce.git>

## 2. ECommerce Project Proposal

- **Handmade Craft Selling Website** focused towards lower scale craftsmen to improve their living conditions by selling their products online with the leveraging technology at the lowest possible cost. This project is a direct to customer model that allows these craftsmen to upload their product information and encourage them to sell their products using state of the art marketing strategies.
